DETAILED ACTION

Response to Arguments/Amendment

Applicant's arguments, see *REMARKS*, filed 4/10/07, with respect to the rejection(s) of claim(s) 1-6 and 8-11 under 35 USC § 102(b) have been fully considered and are persuasive. Therefore, the rejection has been withdrawn.

However, upon further consideration, a new ground(s) of rejection is made in view of Smak (WO 00/00014).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 3-6 and 8-11 rejected under 35 U.S.C. 102(b),
as being anticipated by Smak (WO 00/00014) 2000.

Regarding **claim-1**:

Smak '014 depicts a tray (1) comprising a plurality of non-tapered cavities (2) each having a rib (4) protruding into each cavity as claimed; further each cavity (2) is substantially symmetrically open-ended at both ends (see figure-1) as claimed.

Art Unit: 3644

Finally, Smak discloses a wall thickness of between 0.5 and 2.5 mm and teaches adequate strength (page-3, first paragraph) as claimed, and construction as a continuous piece of material as claimed is readily apparent from the figures.

Regarding claim-3:

The discussion above regarding claim-1 is relied upon.

The cavities (2) of Smak are depicted as of uniform size and shape as claimed.

Regarding claim-4:

The discussion above regarding claim-1 is relied upon.

The cavities (2) of Smak are depicted as hexagonal and arranged in a honeycomb pattern as claimed.

Regarding claims 5, 6 and 8:

The discussion above regarding claim-1 is relied upon.

The cavities of Smak as depicted in figure-1 show a plurality of uniformly sized and evenly spaced ribs (4) protruding into the cavities as claimed.

Regarding claims 9-11:

The discussion above regarding claim-5 is relied upon.

The ribs (4) as depicted in the figures are arranged as claimed.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Saarinen '048; Karhiniemi '546B; Van Wingerden '933; Panth '000 and Keskilohko '530 teach trays having ribs.

Hundt '374 teaches a rectangular tray.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
